| 4.2 extract.....                     | 3 |

## 1. Overview

**JBossEar:** *ATG Java enterprise application archive package*

## 2. Design

**Super Type**  
ear

|                    |                                            |
|--------------------|--------------------------------------------|
| Role               | <b>Concrete.</b> (Objects can be created.) |
| Instance Names     | <b>Unique</b>                              |
| Notification       | <b>false</b>                               |
| Template Directory |                                            |
| Data View          | Children, proximity: <b>1</b>              |
| Logger Name        |                                            |

## 3. Constraints

### 3.1. Allowed Parent Dependencies

- [JBossServer](#)

## 4. Commands

### Note:

Commandline options displayed in square brackets "[ ]" are optional. If an option expects arguments, then angle brackets are shown after the option "<>". Any default value is shown within the brackets.

### 4.1. finish

*finishes the package installation*

#### Usage

```
finish -filename <> [-filtersfile <>] [-filtersfile <>]
      -installroot <> [-script <>] -url <>
```

#### Options

| Option | Description |
|--------|-------------|
|--------|-------------|

|             |                          |
|-------------|--------------------------|
| filename    | <i>the filename</i>      |
| filtersfile | <i>filtersfile</i>       |
| filtersfile | <i>property file</i>     |
| installroot | <i>the install root</i>  |
| script      | <i>script to execute</i> |
| url         | <i>the repo url</i>      |

## 4.2. extract

*Extract the package archive.*

### Usage

```
extract [-base <>] -filename <> [-filtersfile <>]  
-installroot <> -url <>
```

### Options

| Option      | Description              |
|-------------|--------------------------|
| base        | <i>package base name</i> |
| filename    | <i>the filename</i>      |
| filtersfile | <i>filtersfile</i>       |
| installroot | <i>the install root</i>  |
| url         | <i>the repo url</i>      |
