load-jobs

Command Reference

Table of contents

1. Description

Load jobs into jobcenter via an XML file.

Uploads an XML file to Jobcenter containing Jobs in the jobs.xml format. The file is specified with the -file option. Connection options are required. When duplicate jobs already exist in Jobcenter, the action can be determined by specifying the -dupeOption option, whose values are iterated below:

static: This command can be run outside of an object context.

2. Usage

```
ctl -m ProjectBuilder -c load-jobs [-dupeoption <update>]
-file <> [-password <>] [-url <>] [-username <>]
```
