

Add

Command Reference

Table of contents

1 Description.....	2
2 Usage.....	2

1. Description

Add the FireDaemon Windows service if it is not already installed.

In idempotent fashion, add the service if it does not exist.

2. Usage

```
ctl -t FireDaemonService -o <objectname> -c Add
```

2.1. Workflow

1. [assertServiceIsInstalled](#)

2.2. Error Handler

Command	addService
