

# Add

## Command Reference

### Table of contents

1 Description.....	2
2 Usage.....	2

## 1. Description

*Add the FireDaemon Windows service if it is not already installed.*

In idempotent fashion, add the service if it does not exist.

## 2. Usage

```
ctl -t FireDaemonService -o <objectname> -c Add
```

### 2.1. Workflow

1. [assertServiceIsInstalled](#)

### 2.2. Error Handler
