

waitForStartEvent

Command Reference

Table of contents

1 Description.....	2
2 Usage.....	2

1. Description

waits for a startup even of an asynchronously started jboss service

polls the jboss service and returns successfully upon successful startup. Failure will occur from a configurable timeout, defaults to fifteen minutes in the case for lengthy app startups.

2. Usage

```
ctl -t JBossServer -o <objectname> -c waitforStartEvent
[-basedir <>] [-maxwait <900>]
```

2.1. Options

Option	Description	Type	Default
basedir	<i>base directory of the jboss instance</i>	string	<code>\${entity.attribute.jboss_basedir}</code>
maxwait	<i>maximum time in seconds to wait for start event</i>	string	900
